EZ-RIDE SUSPENSION

ABOUT OUR COMPANY

Tuff Country EZ-Ride Suspension was founded on the basis of designing and manufacturing quality suspension products that will take your truck or SUV to a whole new level. We opened our doors in July of 1988 in a humble 1000-square-foot building. Over the past 25 years, we've expanded our world headquarters to a 75,000-square-foot high-tech corporate facility. We've also added a new product development facility, which keeps us on the cutting edge of new design in the ever-changing after-market suspension world.

At Tuff Country you'll find quality always comes first. All of our brackets are made from high-quality, top-grade steel and cut to precise dimensions by a state-of-the-art computerized laser machine, ensuring you a proper fit every time.

The kits are all easily installed and every one comes with a lifetime warranty. And while we never skimp on design and quality, we pride ourselves on offering the most competitive price structure in the industry—giving you the most bang for your buck available.

With the highest quality parts, low prices, plus customer service that's second to none, you'll find that Tuff Country EZ-Ride Suspension towers over the competition.

Thank you for purchasing our product and we look forward to hearing from you soon.
